DOCTORAL ASSISTANTSHIP
WASHINGTON STATE UNIVERSITY VANCOUVER
MATHEMATICS AND SCIENCE EDUCATION PHD PROGRAM

The Education Unit of WSU Vancouver is pleased to announce the availability of a doctoral student assistantship related to the Mathematics and Science Education PhD program. Details of the program and Student Handbook can be found at http://education.wsu.edu/graduate/specializations/mathematics/mathematics_science.html. Qualifications for the position include admission to the program and appropriate prior classroom educational experience. The assistantship is a 2-year minimum position that provides full-time student tuition waiver (10-18 credits per semester) as well as stipend (approximately $14,000 plus benefits over a 9-month period). Duties include a blend of instructional and research activity. The assistantship, which resides on the Vancouver campus of WSU, requires:

- Full-time enrollment in the Math & Science Education PhD
- Ability to teach and/or provide instructional support for education and/or content courses for prospective teachers, especially in the context of math and/or science
- The requisite dispositions, knowledge, and time allowances for academic success and full-time doctoral student enrollment

The Mathematics and Science Education PhD program allows for specialization in mathematics education, science education, or mathematics and science education.

The appointment begins August 16, 2015; application deadline is May 31, 2015. To apply, send completed application materials to Nick Sewell (nsewell@wsu.edu). Application materials include:

- Online Graduate School application (click on “General Application at the top of the following page):
  http://gradschool.wsu.edu/apply/
- Supplemental Information Form (click on “Supplemental Information Form” in the middle of the following page):
  http://education.wsu.edu/graduate/apply/tl/index.html
- Application for a graduate assistantship position (click on “Department of Teaching and Learning” at the bottom of the following page):
