

Portland State University

Center for Science Education

Date: June 21 - July 1, 2010

Time: 1:00 - 3:30 pm, M-F

2010 Summer Course (3 credits)

How to Use an Electron Microscope in The K-12 Classroom

Learn how to use **PHENOM**, a table top scanning electron microscope in an authentic high school setting! Meet the New 2010 Oregon Science Standards for Inquiry and gain valuable hands-on professional experience in an authentic high school setting! Develop data collection, data analysis, and image interpretation skills while addressing topical content standards.

Instructors: Dr. Sherry Cady (PSU-CSE)
Keith Gross (Lake Oswego HS)
