

A Celebration of Women in Astronomy

Jocelyn Bell Burnell

As a postgraduate student at Cambridge, Jocelyn Bell Burnell discovered the first radio pulsars with her thesis supervisor Antony Hewish, for which Hewish shared the Nobel Prize in Physics. Dr. Bell Burnell is a Fellow of the Royal Society of London and a Foreign Associate of the US National Academy of Sciences. She has been President of the UK's Royal Astronomical Society and the first female President of the UK/Ireland Institute of Physics. She is recipient of many awards including the Oppenheimer prize, the Michelson medal, and the Tinsley prize.

*Wednesday, Nov. 14, 4 p.m.
