

## Michigan Innovative Schools Conference

*The Michigan Innovative Schools Conference will foster the critical conversations necessary to address the urgency for education change.*

### Expected Presenters:

- High Tech High Foundation
- Buck Institute (Project Based Learning)
- New Tech Network
- And many other National and State innovative schools

Leading experts from across the state and nation will present practical steps and cutting-edge innovations to make education progress that reaches down to the student level in Michigan.

Teachers and school administrators should attend for key information and to build strong networks with experts who inspire high-performance education systems that fuse 21st-century skills and global connectedness with student learning.

**Michael Horn**

Michael Horn, of the Innosight Group and co-author of *Disrupting Class: How Disruptive Innovation Will Change the Way the World Learns*, will be a featured keynote speaker!

### Key themes in this conference include:

- Blended Learning
- Project Based Learning
- Enhanced Dual Enrollment and Early College High Schools
- Tiered Intervention programs

Please plan to join us on December 11, 2013!

**The Kellogg Center at Michigan State University**  
219 S. Harrison Road  
East Lansing, Michigan 48824
