Covered Topics:

- New wave of protectionism and populism in the global economy
- Regional economic integration and financial crises
- Relations between income inequalities, economic growth, and financial crises
- Decoupling or recoupling of emerging market economies
- Can financial crises be beneficial?
- Financial crises and economic openness of emerging market economies
- How effective are capital controls in the modern economy?
- Costs and benefits of very low interest rates: micro and macro perspective
- Debt crises in advanced economies and their implications both for firms and policymakers in emerging market economies

Papers on related topics will also be considered for publication.
