# Fellowships

## GREAT LAKES AND MARINE POLICY AND SCIENCE

**Michigan Sea Grant is recruiting applicants for fellowship programs!**

The fellowships offer terrific career-building and networking opportunities, real-world training, salary and benefits, and a chance to explore careers where science and policy meet.

Graduate students with a wide range of backgrounds (i.e., science, policy, law) and a strong interest in Great Lakes, coastal, or marine issues are encouraged to apply. Programs require a full-time commitment and most, but not all, fellows participate after graduating.

### ∴ KNAUSS MARINE POLICY

The Knauss Fellowship program matches graduate students with “hosts” such as congressional offices, the National Marine Fisheries Service, or the U.S. Fish and Wildlife Service. Fellows work on a range of policy and management projects related to ocean, coastal, and Great Lakes resources.

**Length:** 1 year, February 1, 2019 – January 31, 2020

**Location:** Washington, D.C.

**Apply by:** Deadline announced October 2017

### ∴ NOAA COASTAL MANAGEMENT

This program places recent graduate students in state coastal management programs. Fellows spend two years working on projects related to climate change, shoreline protection, or spatial planning.

**Length:** 2 years, August 1, 2018 – July 31, 2020

**Location:** TBD

**Apply by:** Deadline announced October 2017

### ∴ GREAT LAKES COMMISSION – SEA GRANT

This fellowship focuses on environmental quality and sustainable economic development in the Great Lakes region. Past fellows have worked on policy analysis and education projects related to alternative energy, invasive species, and water management.

**Length:** 1 year, June 1, 2018 – May 31, 2019

**Location:** Great Lakes Commission, Ann Arbor, MI

**Apply by:** Deadline announced October 2017

### ∴ INTERNATIONAL JOINT COMMISSION – SEA GRANT

The fellow will assist the IJC with international policy and management issues. Through objective advisement to the Canadian and U.S. governments, the IJC handles transboundary conflicts for the benefit of present and future generations. Eligible students should be seeking a masters, doctoral, or professional degree in natural resources, public health, or other related fields. U.S. citizenship is not required.

**Length:** 1 year, June 1, 2018 – May 31, 2019

**Location:** Windsor, Ontario, Canada

**Apply by:** Deadline announced October 2017

### ∴ MICHIGAN SEA GRANT GRADUATE STUDENT FELLOWSHIP

Michigan Sea Grant offers one- to two-year fellowships for graduate students enrolled full-time at Michigan universities who are interested in research relevant to current Great Lakes issues. This fellowship supports student research and enhances academic and professional development opportunities. Research fellows work with a faculty member at an accredited institution in Michigan and an agency sponsor.

**Length:** 1 – 2 years

**Location:** Accredited institution in Michigan

**Apply by:** Deadline announced January 2019
