

# Join our team this summer

We're looking for crew leaders, technicians, and student workers to assess the water quality of streams in the St. Paul and Brainerd area.

## Technician or student worker

Serve on a field crew to sample about 50 sites for fish, invertebrates, habitat measurements, and water chemistry in order to assess water quality of Minnesota's streams; help maintain field equipment; keep field records. Work hours are typically Monday - Thursday, 10 hour days with overnight travel.

### Hourly wage

- Technician: \$16.50
- Student worker: \$14.47

### Minimum qualifications

College student majoring in a water related science, environmental protection or related degree field.

## Crew leader

As a crew leader, you will lead up to four students to assess the water quality of streams by sampling fish, invertebrates, habitat measurements, stream channel condition, and water chemistry. Maintain field equipment, train students, and keep field records. Enter and manage data; calculate summary data for each monitoring site and conduct QA/QC. Assist in preparing data for waterbody assessments. Work hours are typically Monday - Thursday, 10 hour days with overnight travel.

Hourly wage: \$19.46

### Minimum qualifications

- Bachelor's degree in water related science, environmental protection, or related field.
- Or a technical environmental degree AND one year of technical/professional-level environmental protection experience;
- Or two years of technical/professional-level environmental protection experience.
- Ability to pass the MPCA fish identification test
- Ability to work with data in Microsoft Excel and Access
- Valid driver's license
