

# The Science Education Initiative Handbook

*A free open-source guide to fostering change in universities by embedding educational experts within departments*

**Are you engaged in improving STEM education within departments, as a departmental leader, an educational developer, or an administrator?**

Stephanie Chasteen  
*University of  
Colorado Boulder*

Warren Code  
*University of  
British Columbia*

The Science Education Initiative Handbook has practical advice and a suite of resources for those leading initiatives, soliciting departmental proposals, department leaders organizing work with their faculty, or for postdocs or instructors partnering with faculty to make changes to their courses, based on the 10-year initiative at University of Colorado Boulder and University of British Columbia.
