

Opening doors for the diverse leaders and future decision makers  
in the fields of conservation and environmental philanthropy.

# Environmental Fellows Program 2020

## Are you....

Passionate about building a diverse, equitable and inclusive environmental movement?

Curious about grantmaking and its relationship to environmental changemaking?

Thinking beyond traditional definitions of environment?

## If you answered YES!

Consider applying to the Environmental Fellows Program 2020!

## The Fellowship:

A 12-week paid internship in a nationally recognized environmental nonprofit, philanthropic organization, government office or grassroots organization.

A \$11,000 stipend plus travel support.

A pre-program orientation at UM SEAS and post program attendance at the Environmental Grantmakers Association Annual Retreat.

## Apply Now!

Applications open November 1st, 2019 Application Deadline: February 1st, 2020

**M** | SEAS SCHOOL FOR ENVIRONMENT  
AND SUSTAINABILITY  
UNIVERSITY OF MICHIGAN

ENVIRONMENTAL  
GRANTMAKERS  
ASSOCIATION

**The Environmental Fellows Program,** a partnership between the University of Michigan's School for Environment and Sustainability (UM SEAS) and the Environmental Grantmakers Association, provides an engaging summer experience for graduate students committed to the principals of equity and inclusion in the environmental field. Program Activities Include:

### Three-day Orientation at UM SEAS:

- Diversity Equity and Inclusion Training
- An Introduction to Environmental Grantmaking
- Job Skills Training
- Cohort Building Activities

### 12-week Summer Placement in:

- A mainstream or grassroots environmental or social justice nonprofit
- A philanthropic organization
- An environmental media outlet
- A policy think tank
- A governmental office

### Attend the Environmental Grantmakers Annual Retreat 2020:

- Understand trends in environmental giving.
- Hear from frontline activists.
- Present insights from your summer experience.

### Alumni Connections:

- Join a cohort of diverse environmental professionals.
- Ongoing career mentoring and networking.
- Participate in the annual New Horizons in Conservation Conference.

Applications Open November 1st, 2019
