Anchorage International Airport (ANC) is Alaska's largest and busiest airport. Wildlife Services provides ANC and neighboring Lake Hood Seaplane Base with a 24/7 wildlife hazard management program designed to reduce wildlife hazards to aircraft. ANC offers a unique aspect to airport wildlife damage, where Specialists deal with a diverse population of wildlife from moose and bears to gulls and waterfowl. A team of four Specialists operate independently on twelve hour shifts, typically working three days one week and four the next. Specialists are required to patrol the airport grounds, operate around aircraft, and communicate with the Air Traffic Control Tower via radio. Specialists are responsible for housing, and transportation to and from the project.

\* The AD Salary schedule mimics the GS Locality Pay Tables for Alaska:

**SALARY:** AD-0404-3 \$31,401 – \$40,819 per year Plus 2.86% COLA

AD-0404-4 \$35,049 – \$45,823 per year Plus 2.86% COLA

Federal employees in Alaska receive an additional Cost of Living Allowance (COLA) benefit of 2.86% or 4.40% depending on project locale.
