For Landowners:

Thurs, April 1
5 PM - 7:30 AM

[REGISTER](#)

What's new with the CISMA?

We are excited to announce the MM-CISMA has been selected to receive a **new grant award** from the US Forest Service! Funds from the Great Lakes Restoration Initiative (GLRI) will be used to grow the CISMA's capacity to respond to European frog-bit, a newly discovered aquatic invasive species in the region.

We're hiring! The CISMA is looking for two seasonal field techs to work on invasive plant management.

[Click here to view the job posting!](#)

Thank you to all who attended the MM-CISMA annual Municipal Training event on February 25th! The virtual event was a success, with over 90 participants in attendance. Recordings from this event will be available soon via the [CISMA website](#).

Attended the training
but haven't had a
chance to grab your
swag bag? Bags are still
available at the Ingham
and Clinton
Conservation District
offices. Call to
schedule a pickup
today!
