

Summer Research Assistant position Pollination Ecology Research at MSU

Duration: Early May to late August 2022. Possibility of extension into the fall.

Salary: Full time: 40 hours/week, \$15.00/hour

Location(s): Positions available on campus (East Lansing)

Spend your summer studying bees in natural, agricultural, and urban habitats throughout Michigan. Daily tasks include bumble bee observations and collection, plant identification, and data entry. Travel to field sites is in a university vehicle (travel time is paid). We strongly encourage people of minority backgrounds to apply to promote representation and support of all people in STEM.

Project: www.sharronzmiller.com

More info at: www.isaacslab.ent.msu.edu

Required Qualifications:

- Interest in entomology, biology, agriculture, or related fields
- Valid U.S. driver's license
- Ability to work outside
- Attention to detail and protocols
- Ability to work independently and as part of a team

Desired Skills:

- Field research and/or lab experience
- Data entry and analysis
- Insect collection and identification
- Plant and/or pollen identification
- Ability to communicate with a wide variety of people, including scientists and growers

To apply: Send a full CV and a cover letter describing relevant research experience and primary interests. Include the names and email addresses of up to three references. For campus-based positions send application as one PDF to Sharron Miller (mill3499@msu.edu) and copy Jackie Perkins (albertj9@msu.edu) by **March 4, 2022**.
