

# Now Hiring! Botanical Survey Technician

*North Country Cooperative Invasive Species Management Area* (NCCISMA) is seeking two Botanical Survey Technicians for the 2022 field season. These positions will primarily perform surveys, but may also assist with invasive species control and outreach, over a six county area in Michigan, including Lake, Mason, Mecosta, Missaukee, Osceola, and Wexford Counties

## Job Description

- Employee will conduct botanical surveys on public and private land, in both aquatic and terrestrial environments
- Riparian surveys will be performed, as part of a two-person team, by Jon boat, kayak, or hiking in waders, as appropriate to the survey location
- Terrestrial surveys will be performed predominantly independently on foot, and will include extensive off-trail hiking in remote high value habitats, and on-trail hiking of ORV trails
- Windshield surveys of roadsides will be performed as part of a two-person team
- Employee will collect data needed to produce invasive species inventory maps, including notation of nearby high value habitats, locations of native vegetation, and occurrences of threatened, endangered, and sensitive species
- Field data collection will primarily be done using the ESRI Field Maps app on Ipads, with alternate data collection using data sheets, GPS units, and hand-drawing field maps if necessary
- >75% of work time will be spent performing surveys; remainder of time may be spent assisting with outreach events, including volunteer workdays, and assisting the field crew in performing invasive species management activities in the field

## **Required Education/Experience**

• Bachelor's degree in botany, conservation biology, environmental science, or a related field

# OR

• Equivalent work, volunteer, or recreational experience that has resulted in strong skills in identifying Michigan native and invasive plant species

## **Other Requirements**

- Must hold a valid driver's license, have a good driving record, and a reliable vehicle
- Must be able and comfortable to work independently outdoors in remote areas, in a variety of habitats, in all weather conditions
- Effective experience employing dichotomous keys to identify plants
- Ability to identify high priority invasive species quickly, at a distance
- A respect for people from all demographics
- Must be reliable and have an exceptional work ethic
- Must have boater safety certificate or be willing and able to take and pass the course

# Additional Desirable Skills

- Strong written and verbal communication skills
- Experience using ArcMap data collection apps

- Experience in natural resource management, preferably in invasive species management or habitat restoration
- Certified Commercial Pesticide Applicator in the Core and categories of Right-of-Way, Aquatics, and Ornamentals

#### **Terms and Benefits**

- Pay Range: \$15 \$18 per hour, commensurate with experience and expertise
- Primary duty location in Cadillac, MI; travel across a six county area will be required
- This is a full-time seasonal position, working 40 hours per week for up to 18 weeks
- Preferred start date is June 6<sup>th</sup>
- Benefits include paid federal holidays, vacation, and sick-leave; retirement option with employer matching contribution

#### **Other Considerations**

- Must be able to hike off-trail up to 10 miles per day
- Field work will take place in all weather conditions, and will likely involve contact with stinging insects and hazardous plants
- Must be comfortable working on rivers, lakes, and wetlands in kayaks, boats, and waders
- Decontamination of self, clothing, and equipment between survey sites is imperative
- Must be able to work flexible hours; work days are generally 8 hour days, with occasional evenings or weekends required
- Travel using personal vehicle will be required, with mileage reimbursed at the federal rate
- Must be willing to travel across a six-county area, as needed, to complete work assignments
- Use of personal smartphone is required

#### To apply

Submit a cover letter, resume, college transcripts if applicable (unofficial are acceptable), and 3 references to Vicki Sawicki, NCCISMA Program Coordinator, at vicki.sawicki@macd.org. if qualifying based on experience – include a statement of type and years of experience. The subject line for your application email should state "Survey Technician". Please contact NCCISMA with any questions at (231) 429-5072.

#### Please submit your application materials no later than

# Monday, April 18<sup>th</sup>, 2022
