

ODNR Division of Wildlife
Natural Resource Technician 1
Lake Erie Field Technician
Pay Rate \$17.22/hr.

The ODNR Division of Wildlife is looking for applicants to assist with Lake Erie fisheries assessment and research projects. We are seeking motivated individuals that excel working both independently and in a team environment, have demonstrated an interest in a career in fisheries management, and have strong inter-personal skills. Preference will be given to applicants that have completed a B.S. or B.A. in Fisheries, Natural Resources, or related field.

Applicant must be:

- A minimum of 18 years old
- A holder of a valid driver's license

Field Technician Duties: Assist with fisheries research programs aboard Lake Erie research vessels; collect biological samples from harvested fish; record data in lab and field (lengths, weights, sex, maturity, and processes diet samples); examine sport and commercial harvest for tags; collect age/length data from angler-caught fish; age fish by otoliths; perform water quality, benthic, habitat and hydroacoustic sampling; assist with facility/vessel maintenance.

Work Hours: 40 Hours/Week (will including long days and occasional weekends); 1000 hrs. maximum duration.

Wage: \$17.22/hour

Positions Available: 2 – Fairport Harbor; 2 – Sandusky

Position Duration: May through October.

To apply, send email and resume to:
