

Position: Two (2) Short-term Internships – Wildlife Technician

Organization: Canada Creek Ranch, Atlanta, MI 49709

Compensation: Volunteer, Room & Board Provided

Overview:

Canada Creek Ranch is a private 13,500-acre recreational, gated community located in Atlanta, MI. We are searching for a volunteer team of two dedicated individuals who can collect data on harvested white-tailed deer. Duties include, but are not limited to, collecting biological data from hunter harvested whitetail deer from the first four days of firearm season. This data will be collected at our established deer check station. Volunteers will be working directly under the wildlife biologist. Dates for the deer check are November 15th-18th, 2023 and involve dawn to dusk efforts. You may stay at the Ranch house until Sunday morning. Tasks performed will be mandated by CCR and MDNR regarding size, weight, aging, and disease control. Training will be provided. Room and board will be provided by Canada Creek Ranch.
