

Lesser Prairie-Chicken Survey Positions in northwestern Oklahoma

Lesser Prairie-Chicken survey technician positions (3) available from early March through early May 2024.

Description: Starting 12 March 2024 through 8 May 2024. Conduct Lesser Prairie-Chicken standardized surveys as assigned throughout northwestern Oklahoma, following established protocol. Typically six mornings per week, 4-6 hours per day doing surveys, and 1-2 hours per day data entry. Must be able to work early mornings and tolerate cold weather, and be able to operate 4WD vehicle. Personal 4WD vehicle preferred, and reimbursed for mileage. Must be flexible to work around weather conditions (can't survey in rain or high winds). Excellent hearing and bird identification skills are essential. Must be competent in reading maps and using GPS.

Requirements: BS Degree or equivalent, previous Lesser Prairie-Chicken or other avian survey experience preferred.

Salary: \$800 per week. Housing will be provided.

Schedule: Generally six days per week, depending on weather, about 4-6 hours of field work and 1-2 hours of data entry/day (~40 hours per week).
